

European Fencing Confederation Confédération Européenne d'Esgrime

SAFEGUARDING SEMINAR

April 15, 2026

Information Letter no. 11-2026

Dear National Federation,

The FIE and EFC statutes recommend that all Member Federations develop a Safeguarding Policy.

In an increasing number of countries, having a Safeguarding Policy is mandatory. Either by the government or by National Olympic Committees.

To support these expectations, the EFC is delivering an online seminar for any National Federation currently developing, or planning to develop, a Safeguarding Policy.

Audience - National Federations Developing a Safeguarding Policy

Description - Designed specifically for National Federation representatives working on safeguarding policy development, this 90-minute seminar focuses on building and strengthening national safeguarding frameworks aligned with EFC principles.

Time/Date - The session will take place at 18:00 CET on Monday, 4 May 2026.
