## FIE Material Support 2026

### Information Letter no. 13-2026

Dear Member Federation,

The FIE will continue and further expand its program of material support to national federations. At its most recent Executive Committee meeting, it was decided to optimize the selection of equipment in order to better meet the specific needs of each federation.

Within this framework, the FIE will provide equipment from the catalogue of Absolute Fencing, the FIE's Platinum Partner.

We kindly ask you to respond as soon as possible, and no later than **26 April**, by providing the following information:

- 🕒 Do you wish to benefit from the FIE material support program?
- 🕒 What type of equipment do you require to support the development of fencing in your country (please refer to the Absolute Fencing catalogue)?
- 🕒 For which specific project will the equipment be used (brief description)?
- 🕒 What is the expected timeframe for this project?

The EFC Bureau will carry out a preliminary assessment of the applications, taking into account, in particular, the evolution of the number of licenses in recent years, the commitment of the federation to the development of fencing at national level, as well as the uniqueness and attractiveness of the proposed project.

The final decision on the allocation of the material will be taken by the FIE Bureau.

We thank you in advance for your cooperation.

Best regards,

**Pascal Tesch**  
President
