September 14, 2026

Invitation to EFC Training Webinars on Communication and AI

Information Letter no. 31-2026

Dear Member Federation,

The European Fencing Confederation is pleased to invite all MF-s to participate in two upcoming training webinars dedicated to communication, digital development, and the growing role of artificial intelligence in sport.

The webinars are mainly targeting Federation Press Officers, Organising Committees, clubs, and other individuals interested in strengthening communication and developing their knowledge within the world of fencing.

They align with the FIE policy to strengthen “Communication and Engagement”, one of the key performance indicators of the IOC.

Schedule:

25 September | 15:00–17:00 CET

Building Stronger Communication for Fencing

Speaker: **Erika Kirpu**, EFC Press Officer

This webinar will focus on effective communication within the fencing community and on ways to strengthen the visibility and presentation of our sport.

26 September | 11:00–13:00 CET

The Power of AI

Speaker: **Alessandro Noto**, EFC Senior Advisor, Digital & Marketing

This webinar will explore the opportunities offered by artificial intelligence and its potential applications in communication, digital activities, and the development of fencing.
